

General Code Unveils a New Website!

www.GeneralCode.com

General Code is excited to present our newly enhanced Website!

As we begin a new year, we are proud to present a new look and feel to the General Code website! Please visit us at www.GeneralCode.com to see all the improvements we've made.

A Message from Gary M. Domenico, President & CEO of General Code:

I'm pleased to say that in 2012, General Code will commemorate 50 years of service excellence to government, educational and private organizations. Founded in 1962 by A. Ross Kitt, II, an attorney and civil servant, on the principles of quality solutions, service excellence and dedicated customer care, we are committed to honoring the legacy of our heritage and values.

As part of our year-long celebration, we are proudly unveiling an updated, redesigned website. It is our commitment to always provide our customers with valuable information, and easy access to it. I invite you to take a moment, when your day allows, to visit our new site and see all the improvements we have made.

You'll find ready access to a calendar of conferences we'll be attending with you throughout the year, as well as informational webinars about our products and services.

You'll also find a new Message from the President. I would appreciate it if you would take some time to read it, as it was written with you in mind. You can locate the link beneath the festive 50th Anniversary graphic on our new home page. I would like to hear your thoughts about this new message and encourage you to send your comments directly to me at gdomenico@generalcode.com.

Highlighted Features of our New Website:

- Search capability at the top of every page
- Easier navigation to our [Online eCode360® Library](#)
- A new [Message from the President](#)
- Enhanced access to [Sample Legislation](#)
- Calendars of [conferences](#), [webinars](#) & [special events](#)
- Easy 'Share' menu at the bottom of each page to forward valuable content to your colleagues
- Convenient access to [General Code contact information](#)
- Links to social media options for even more ways to keep in touch with General Code!

To experience all of these enhancements, and more, you can visit the newly redeveloped General Code website at www.GeneralCode.com.

Additionally, we've added search capability to the top of every page, and an easy to navigate menu system. I think you'll be pleased by the upgrade to our website that is still as rich in content as it ever was, but is more appealing in design and provides a more consistent experience as you travel through it.

Finally, I want to take this opportunity to thank you for your continued business, your trust and your loyalty. All of us at General Code are truly grateful. We hope you will find our updated website helpful and useful, and we look forward to serving your needs for another 50 years.

Sincerely,
Gary M. Domenico
President & CEO
