Ensure that ordinances are always accurate, well-organized and easily accessible

Codification allows your ordinances to be gathered by topic and systematically arranged into an enforceable code of ordinances that officials and constituents can easily reference to find and understand the current ordinances that affect your municipality.

What's your need?

Create a new code: We work closely with you to compile your ordinances into a print and/or online code that's organized, accurate and enforceable.

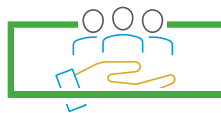

Update my current code: Regular code updates help guarantee that your municipality always has a current, accurate and enforceable resource.

Get an Editorial & Legal Analysis: Our legal and editorial experts use their knowledge and experience to identify conflicts, inconsistencies, duplication and statutory compliance issues in your code and recommend changes.
