

ENHANCED ZONING GRAPHICS

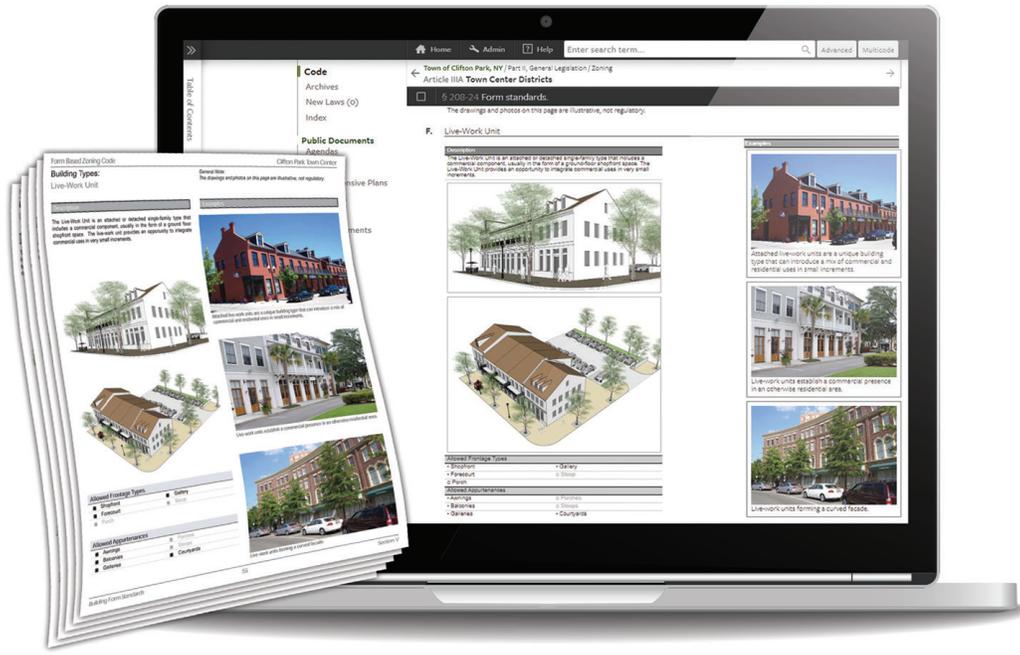

Present your
municipality's vision with clarity

A GENERAL CODE COMPANY

codebook.com | 800.551.2633

Stay true to your municipality's vision in your online zoning code

Enhanced Zoning Graphics, a Visual Zoning™ service offered collaboratively with General Code, helps to ensure that key design elements in a graphically structured zoning code are retained—without compromising its original content or focus.

Stay focused on growth—not time-consuming updates

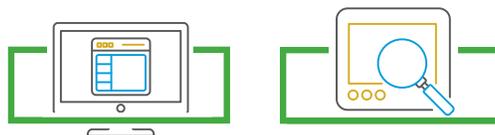

Our codification experts can easily incorporate all text and graphic updates so that municipal staff members don't have to maintain the code themselves or host the zoning code separately from the rest of the code of ordinances. Our extensive background in codification also allows us to maintain the look, function and structure of the zoning code.

Multi-Column Layouts

Uncompromised Graphics

Persistent Color Coding

In-line Table Support
